400W Digital VIP Protection Bomb Jammer with Remote Control and Monitoring
JM165114
2021/07/17

Have you ever thinking that the devices that designed for blocking remote controlled improvised explosive devices used by terrorist can be gained now? Here this 400W Digital VIP Protection Bomb Jammer with Remote Control and Monitoring you are viewing here just own such kind of function. First of all, check the interference capability of this VIP protection bomb jammer, you will understand its powerful function, because it can cut off the signal time and specific of 20-100 MHz, 100-500 MHz, 500-750 MHz and 750-1000 MHz at the same time. The signal strength of the location, in the standard environment, the shielding range is 50-200m, and the interference radius depends on various conditions, such as the transmitter frequency and output power, the distance to the receiver, and the obstacles between them. In addition, this high-power digital VIP protection bomb jammer also has high input voltage and low voltage protection and VSWR protection function, which can prevent antenna mismatch including open circuit and short circuit. This high-power remote control VIP protection bomb signal interceptor also has to overheat protection-thermal protector and overcurrent protection design. In addition, this VIP protection bomb jammer also uses a remote control and monitoring, LCD output power indication, output power adjustment for each band and bandwidth adjustment within the LCD bandwidth, and output power on/off design for each band. The VIP protection bomb jammer also uses the most advanced technology, which can achieve the best performance and interference signal transmission to activate the bomb. For more detailed information about this VIP protection bomb jammer, you can check the following specifications here.

jammer apk unlimited robux

The jammer store gps jammer ebay 2021-05-16. as wireless radio devices continue to evolve technologically, allows state and federal prisons to use jamming systems to interfere with cellphone signals within the housing facilities of the inmates. numbness
